

HAIDER ALI

Junior Full-Stack Developer

📍 Islamabad, Pakistan | 📞 +92 (319) 581-0608 | ✉️ ha5743330@gmail.com
Address: Muhallah Malikabad, near Allah Wali Masjid, Bhara Kahu, Islamabad

PROFESSIONAL SUMMARY

Highly motivated and detail-oriented Junior Full-Stack Developer with a solid foundation in Computer Science and a strong passion for the MERN Stack (MongoDB, Express.js, React, Node.js). Demonstrated ability to build scalable, high-performance web applications, highlighted by designing and deploying a comprehensive remote management infrastructure. Proven expertise in integrating advanced real-time communication protocols alongside biometric security layers. Fast learner and adaptive team player, currently refining engineering workflows and managing multiple synchronous collaborative environments.

PROFESSIONAL EXPERIENCE

Full Stack Web Development Intern

July 2026 – Present

Arch Technologies — Pakistan

- Collaborating on full-stack web application features using modern JavaScript frameworks.

Front End AI Engineering Intern

July 2026 – Present

FlyRank AI — Pakistan

- Building and optimizing intelligent, AI-driven frontend components and user interfaces.

Web Development Intern

June 2026 – Present

DevelopersHub Corporation — Pakistan

- Contributing to end-to-end full-stack development, feature testing, and debugging.

Full Stack Web Development Intern

June 2026 – Present

CodeAlpha — Pakistan

- Developing responsive UI screens and processing dynamic backend APIs.

Volunteer Department Intern

July 2026 – Present

Alkhidmat Foundation Pakistan — Pakistan

- Assisting tech workflows and structural data management for community programs.

KEY PROJECTS

Smart Remote Client Sessions Management System

Final Year Project

- Built a secure TeamViewer-like remote control system using **WebRTC** and **Socket.io**.
- Integrated AI biometric layers featuring **Face Recognition** and **Liveness Checking**.
- Developed under technical mentorship of supervisor Ahsan Raees, receiving executive endorsement.

Multi-Company Remote Production Workflow

- Successfully navigating and balancing four simultaneous developer environments concurrently, validating strong time management, rapid agility, and engineering productivity.

TECHNICAL SKILLS

Languages: JavaScript, Python, C++, HTML5, CSS3

Frontend: React

Backend: Node.js, Express.js

Database: MongoDB

Cloud & Tools: AWS, Git, GitHub

Core Concepts: WebRTC, Socket.io, Real-Time Communication, Biometrics

EDUCATION

BS in Computer Science

PMAS Arid Agriculture University

BIMS Campus, Islamabad

CGPA: 2.96 / 4.00

2022 – 2026

Intermediate (ICS)

Islamabad Career College

Bhara Kahu, Islamabad

2020 – 2022

CERTIFICATIONS

Microsoft Certified: Azure AI Fundamentals

Credential ID: AI-900

Validates proficiency in Machine Learning, Computer Vision, and Natural Language Processing.
